*From The Desk of **Elliot Odle***

Hey There,

If you're anything like me, you dream of an ideal lifestyle and don't do anything to move towards it...

You think there's something wrong with YOU, but there's not!

You just don't know how to get yourself to take action...

YET!

And that's good news because that says something about you...

the SAME thing it says about me...

It's says YOU are MORE motivated by **avoiding** PAIN than gaining pleasure... (MOST people are)...

If More People Knew This About

Themselves... You'd see a LOT more "successful" people in the world,

because they would know how to get themselves to take action...

Very few people are motivated by **gaining** pleasure, which is why very few people are

successful, because usually only people motivated by gaining pleasure **know how** to

get themselves to take action,

**Because Moving Towards Pleasure Is What
Comes *Natural* To THEM!**

The rest of us are in deep, doo, doo... And by the way most gurus/experts teach

people to get images of things they want and visualise them... me included! But most

people just visualise and don't take action,

WHY?

Well...

Although they want nice things, they aren't **motivated** by them!

If they were, they WOULD be taking action. But they aren't...

Why On Earth Is This GOOD News??

It's good news, because I KNOW EXACTLY what to do!!!

Because I'm more motivated to take action in order to **avoid** pain...

Which tells me... You will move twice as fast to avoid pain than you will to experience pleasure...

It's just like when you know filing your taxes late has a penalty; you spur into action because now it's more comfortable taking massive action!

A New Comfort Zone Was CREATED!!!

That's exactly what this brain hack will do for you!

This #1 Secret Brain Hack is **designed** to make it MORE painful to procrastinate than to take massive action...

No Scratch that...

It's Designed To Make It INEVITABLE That You Take Massive Action...

Use this for everything, you know you should be doing but don't get around to doing! It only takes 29 seconds...

Write a cheque out to a good TRUST worthy friend for \$1,000... Tell them that if you fail to prove to them that you have done the key activity (you know will put cash in your pocket), every working day for 1 month they have your permission to deposit your cheque!

This guarantees you'll commit to the key cash generating activity, you'll be too terrified NOT to follow through, it will be excruciating painful to lose \$1,000, and far more comfortable to take action building your income generating habit!) If \$1,000 doesn't bother you choose an amount which does!

This WORKS... Trust me!

It will...

- ✓ **SUFFOCATE FEAR & PROCRASTINATION** BEFORE IT HAS A CHANCE TO FESTER AND SABOTAGE YOUR SUCCESS...
- ✓ **OVERRIDE FEAR & AUTOMATE ACTION** SO YOU DON'T HAVE TO RELY ON WILL POWER TO GET YOU TO TAKE ACTION...
- ✓ **CREATE A NEW COMFORT ZONE** SO EVEN WHEN YOU ARE SCARED YOU DEFAULT TO THE ACTIVITY WHICH GENERATES CASH...
- ✓ **GET EVERY TRAINING** YOU HAVE EVER INVESTED IN TO ACTUALLY PAY CASH INTO YOUR POCKET...

But ONLY If You DO It...

So get out your cheque book and write ME a cheque \$1,000 right now! Just kidding... But seriously...

Find Someone TRUSTWORTHY...

Who you know **won't** deposit your cheque until you prove to them you've done what you say you will (and of course, when you can show them you've done it, they won't be depositing anything) LOL 😊

But...

Make Sure This Person Is Also Someone Who Has Integrity

Who you know will not let you chicken out and will just hand you your cheque back...

So go ahead and do this RIGHT NOW!

What have you been putting off? Which you know will put cash in your pocket...

Text your friend/family member and say: Hey, I have a cheque with \$1,000 with your name on it. If I fail to prove to you I've done X every working day for 1 month! You have my permission to deposit it! When can I give you the cheque?

NOW Let me show you [how to put this brain hack to good use and take this resource to the next level]..."

Are you sick of blowing \$97 here, \$997 there, \$1,997 at every internet marketing launch?

Buying courses and not even looking at them...

Or you start but don't finish, OR you finish and just don't do anything...

OR maybe you do the market & competitor research, create the product, build the website, make all the marketing materials...

But when it comes to the part which you know will actually make the money you freeze...

You find something to make “better” just stalling... **Is that you?**

Or maybe you started marketing and you didn't get the result you wanted... and you're scared to try again... so you keep improving the sales funnel without sending anyone to it,

You don't even know if your tweaks are going to make a difference...

You buy another course, learn everything, make the changes, but you don't pull the trigger when it comes to making cash... **Sound familiar?**

You wonder What's wrong with me? What's going on? What's stopping me? Why am I so scared?

You're not alone...

Now... You've been told your problem is **fear of failure**, but that's not the REAL reason, you procrastinate...

There is an UNDERLYING subconscious fear waaaaay Deeper than Fear of failure...

And it paralyses you, into non action...

It **feels** like fear of failure... and because that's what 99% of people THINK it is, they try to tackle “fear of failure” but that's just a symptom OF the cause...

This is why you have tried everything else everybody else teaches without success...

It's not your fault!

So called "experts" have given you the wrong advice... They don't EVEN know that they are merely addressing the SYMPTOM "fear of failure" and NOT it's cause...

It's like having a warning light on the dashboard of your car come on and you just yank the wires out to turn the light off, but the oil still needs changing...

So... there you are... in love with the dream lifestyle. You love just thinking about it...

The emotional euphoria of it feels awesome **doesn't it?** The money, the dream house, dream car, vacations, the freedom....

But your underlying fear is what KEEPS you fantasizing and NOT moving towards the dream...

Wanna know what your underlying fear is??? Here it is... "What if I take action and find out, I CAN'T have the epic life I fantasize about!!!" The fear of finding THAT out, is what stops you...

You enjoy the fantasy so much, the fear of losing the euphoria is so excruciating, you would rather keep it as a dream in your head... Because if you don't take action, your dream stays safe... you'll never find out you CAN'T have that dream life... As long as you KEEP it a fantasy!!! Your dream's safe to enjoy... So... you don't take action... That's what's going on...

YOU'VE just never been able to articulate it this way before!!!

Are you getting this?

This is exactly what happened with me for 8 years not asking that beautiful girl to be my girlfriend. I preferred dreaming of her being mine, than potentially finding out she didn't want me!

And guess what I spent around the same period of time procrastinating starting my business. For the exact same underlying reason...

Well fast forward 14 years I married the same hot chick...

(And I started my business and actually started making money!

Now, if you want to the hot girl, the dream lifestyle, the dream business... you're going to have to face your underlying fear and it's going to cost you....

But don't worry... as you'll soon see it doesn't cost very much, and if you do it right you can actually create a new comfort zone which generates income for the rest of your life...

So how do you get around this underlying fear of losing the fantasy?

Is there a system or "hack" that will give you the life you deserve?

There is and that's exactly what this Ebook is all about...

So what's the solution?

What happened?

How did I end up making the proposition to the hot girl who became my wife?

How did I end up ACTUALLY starting my business?

The solution to both was exactly the same...

I figured a way to trick the brain so facing underlying fear is virtually painless...
